

# The Next Generation Surface Protection

## The science of surface protection takes a quantum leap forward with Sentry Molecular Coatings.

Leading edge products employing the very latest 21st century molecular technology to deliver even higher levels of protection. That's Sentry. Products that have not simply taken nano technology onto a new level, but surpassed it. And along the way set new standards in surface protection.

In every area, Sentry Molecular excels:-

**Durability**

**Staying Power**

**Ease of Application**

**Ease of Maintenance**

**Compelling Cost-Effectiveness**

Not only this, but Sentry meets the most current environmental testing standards too. Low and zero VOCs really are just the beginning.

Whatever surface protection solution you're looking for, there's almost certain to be a Sentry product that will meet your needs. Check out our products and applications and you'll begin to appreciate the depth of Sentry's capabilities.

**Try us. Test us. We're up for the challenge.**
